

ENVIRONMENTAL POLICY STATEMENT

Scenic Surrounds and its officers recognise that protection of the environment is of the utmost importance and vital to its ongoing success. As such we have a primary duty of care to ensure the environment within which we operate is appropriately cared for. We aim to continuously improve environmental management in the workplace through effective review systems, consultation and increased environmental awareness of management and workers.

Through the participative and co-operative efforts of management and workers, we are committed to ensuring:

- All waste materials created from customers premises are ethically disposed of and recycled whenever possible.
- Waste is minimised by evaluating operations and ensuring they are as efficient as possible.
- We actively promote recycling both internally and amongst our customers and suppliers.
- We meet or exceed all the environmental legislation that relates to the Company.
- We integrate the consideration of environmental concerns and impacts into all our decision making and activities.
- We promote environmental awareness and work in an environmentally responsible manner.
- We reduce internal waste through re-use and recycling as well as minimising our use of paper within our administration and operations procedures.
- We avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, stored or disposed of.
- We minimise the level of harmful emissions within the company.
- We develop and maintain appropriate emergency and spill response programs.
- We communicate our environmental commitment to customers, suppliers and the public and encourage them to support it.
- We strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy considering our current and planned future activities.

The focus of Scenic Surrounds' environmental management system is preventing harm to the environment. We will develop a framework for environmental management and a plan for systematic risk assessment and control of hazards, to progressively improve environmentally friendly behaviours and systems of work across the Organisation.

A handwritten signature in black ink, appearing to read 'Sven Andersen', is positioned above the printed name.
